

## SUN Solutions

Nova Networks is a proud SUN iForce Regional System Provider. Our strength is in delivering integrated SUN solutions, for Apple, Linux, NetWare, SUN, and MS Windows networked systems.

### Our SUN Solutions Include:

#### Hardware Upgrades

SUN is committed to ensuring that upgrades are "easy-to-understand", "quick-to-order", "safe-to-implement" and remain a compelling reason to buy SUN products.

#### Information Appliances

Innovative solutions like the exceptional SUN Ray I, help you take control of the corporate desktop.

#### Workstations

UNIX workstations: from the competitive Ultra 5, to the powerful Ultra 80.

#### Workgroup Servers

Reliable, scalable, rack and tower volume servers; 1 to 4 processors.

#### Enterprise Servers

Higher uptime and more headroom for business applications. SUN's Enterprise Server Line: strong alliances and expanded services.

#### SUN Software Solutions

SUN offers complete, end-to-end, single source software solutions for your enterprise and dot-com computing needs.

## Network Storage Solutions

- **Disks & Arrays**

Because SUN approaches storage as a practice, SUN's customers receive the highest levels of availability and reliability in their SUN StorEdge systems.

- **Tape Backup & Libraries**

Losing data is expensive. Downtime is expensive. Protecting your data is not. SUN can help you do that-with high-quality backup products and with customized Professional Services.

**iFORCE<sup>SM</sup>**  
**REGIONAL**  
**SYSTEM PROVIDER**

Don't forget our SUN Catalogue of recommended configurations: We can provide your business with a number of recommended systems are readily available for easy delivery.

**Real business solutions for  
your 24/7/365 e-world  
of tomorrow.**
