

The new alternative to tape backup: Cloud Backup Services provides robust disk to disk backup and recovery.

World Class Online Backup Packaged to Suit Your Business

EVault SaaS is a best-in-breed automated online backup and recovery offering that provides secure, reliable, efficient protection of your entire organization's critical data.

Folders, files, databases, mailboxes, system state, user profiles can all be backed up according to your preferences such as daily increments and weekly full.

Packages Available

- EVault SMB
- EVault SaaS
- EVault Managed Services
- Remote Disaster Recovery

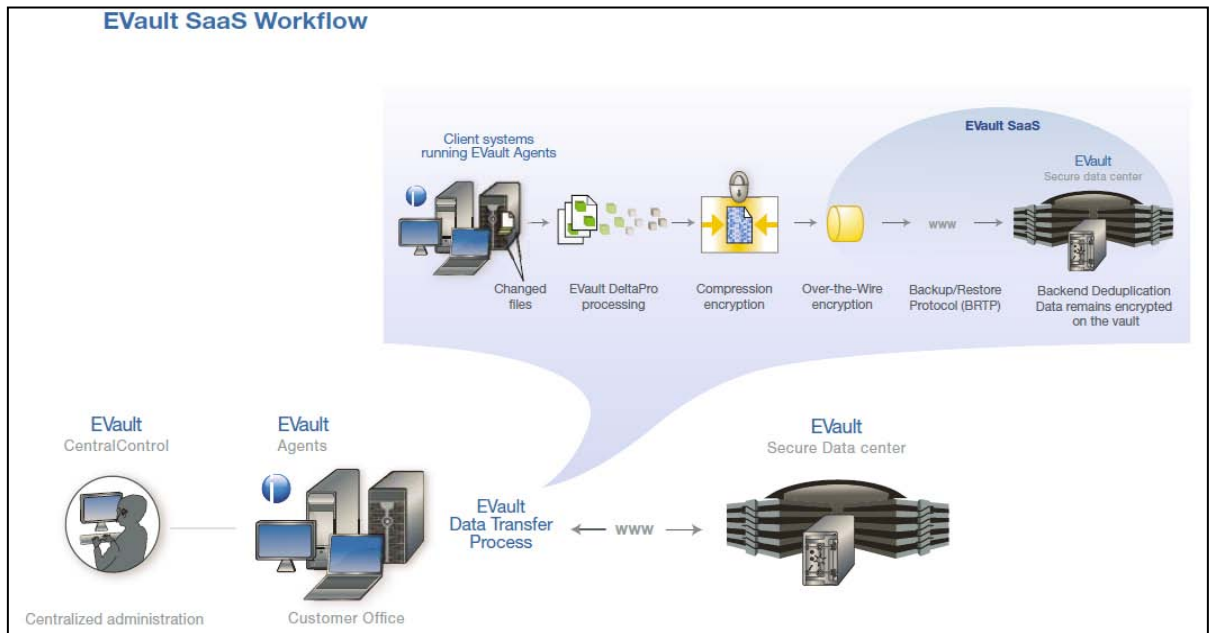

Ask your Nova Account Manager for more information and pricing.

How it Works

EVault SaaS uses specialized agents to optimize backups through compression, de-duplication and other technologies working with either an on-premise device or straight to a data centre in your country. If an on-premise device is used, data recovery is very fast and the entire process of backup can be done seamlessly.

Key Benefits

- Easy, automatic data protection
- Secure and reliable with broad support
- IT staff with 24/7 expert help and no capital expense
- Assured disaster recovery and centralized management
- Easy regulatory compliance
